FundTrail — Use case diagram

Issue: EPIC-001 / T3 (#8) · Parent: #1 · **Source:** SRS (Docs/srs.md) §2.3 and §5

Kavindu is the primary actor. Firebase Authentication, Cloud Firestore and Android OS (notifications, connectivity) are secondary actors. The diagram covers use cases UC-01…UC-15. <<include>> marks steps that always run as part of a use case. <<extend>> marks a step that runs only under its condition: **Show goal cost** extends quick-add for discretionary expenses (FR-41).

Coverage: every SRS FR group

SRS group	Use cases
§5.1 Authentication and onboarding	UC-11
§5.2 Accounts	UC-12
